Grady Wind

Pattern Energy operates the Grady Wind facility in Curry County, New Mexico.

Meaningful Partnerships

We believe in acting as a good neighbor through long-term engagement and giving. Pattern Energy equally commits to listening and respecting the landowners and communities that host our facilities through relationship building, open communication, and the reception of feedback. We encourage you to call or email our team to start a conversation.

Job Creation

Construction entailed hundreds of workers on-site during peak activity in 2019 and more than $100 million in locally sourced construction expenditures. With the help of local contractors, 18 on-site personnel operate and maintain the Grady Wind and neighboring Broadview Wind facilities.

Community Giving

Supports the community by sponsoring and donating to groups, causes, and events, including schools, first responders, and charitable organizations.

Lasting Revenue

Expects to generate $7 million over its first 25 years of operations in tax payments to Curry County and the Grady Municipal School District.

Harnessing the Wind

Wind energy provides local and sustainable electricity to the nation's energy mix. Today's wind energy technologies deliver affordability and reliability, making wind an ideal energy source.

The 220 MW wind energy facility uses 84 American-made Siemens Gamesa 2.625 MW wind turbines to provide safe, affordable, and renewable electricity to power the needs of more than 225,000 Americans yearly. Electricity produced by the facility is sold to the Sacramento Municipal Utility District under a 25-year power purchase agreement.

About Us

Pattern Energy is a leading renewable energy company that develops, constructs, owns, and operates high-quality wind and solar generation, transmission, and energy storage facilities. Our mission is to transition the world to renewable energy through the sustainable development and responsible operation of facilities with respect for the environment, communities, and cultures where we have a presence.

Our approach begins and ends with establishing trust, accountability, and transparency. Our company values of creative spirit, pride of ownership, follow-through, and a team-first attitude drive us to pursue our mission every day. Our culture supports our values by fostering innovative and critical thinking and a deep belief in living up to our promises.

Headquartered in the United States, Pattern has a global portfolio of more than 35 power facilities and transmission assets, serving various customers that provide low-cost clean energy to millions of consumers.
